WASHINGTON, Sept. 5.—American warships on the Atlantic patrol today are believed to have been warned by the navy department to be on the alert for the possibility of further encounters with Axis sea raiders as a result of the unidentified submarine attack on the U. S. destroyer Greer about 150 miles west of Iceland.

The first "shooting" incident between the United States Navy and a submarine presumed by navy officials to be of Axis origin and most likely German, had official Washington wondering whether it represents a case of mistaken identity or marks the beginning of undeclared sea warfare between this country and Germany.

Traffic fatalities were held to a minimum during the month of August, according to reports, and the number of the year may not greatly exceed last year's figures, despite the big increase for the first six months of the year. Only on traffic death occurred last month, that of John Lake, Fort Myers soldier. This brought the number for the first eight months to 13. However, two have already occurred in September.

Local Primary Election Battle Ends Tuesday

Voters Of New Castle And Lawrence County To Name Party Candidates

IMPORTANT OFFICES FIGURE IN VOTING

Campaign Has Been Quiet One And Light Vote May Be Outcome

One of the quietest primary elections in years comes to a conclusion Tuesday, September 9 when the voters of New Castle and Lawrence County go to the polls to name their party candidates for election in November. In spite of the fact that the election is an important municipal election the interest in most of the races is hardly discernible save among the candidates and their workers.

Important offices are to be filled, policies are to be made and taxes are to be levied and spent, but the apathy of the voters to the election is marked. It may be that the return of prosperous times has something to do with it; people may be too busy working to talk politics, but whatever the reason, the fact remains that the vote indicated today will be a light one.

The apathy of the voter is reflected somewhat in the fact that the list of candidates is small, in some cases only one candidate being filed and in other cases there are no candidates filed at all.

The offices to be filled are judge of the supreme court, judge of the superior court, judge for Lawrence county, sheriff, district attorney, register and recorder, jury commissioner, county surveyor, two New Castle city council, city controller, three New Castle school directors, and in addition there are justices of the peace, township supervisors, township auditors, tax collectors, assessors and election officials to name.

For judge of the supreme court the Republicans have two candidates, Earl Compton, of Harrisburg, and William M. Parker, of Oil City. Judge Parker is presently upon the bench. The Democrats (Continued On Page Two)

BERLIN, Sept. 5.—German "Big Berthas" of the heaviest and most modern type opened up on Leningrad today despite previous indications that Soviet Russia's second city and the one-time capital of the Czars would be spared.

At the same time the German army corps smashed forward to gain considerable ground in the central sector, according to an official announcement today. Soviet losses in men and material were said to be extremely heavy.

German spokesmen only yesterday said that Leningrad would be spared the fate of Warsaw and Rotterdam and would merely be passed by.

But a brief announcement from Reichsfuehrer Adolf Hitler's headquarters on the eastern front said: "Encirclement of Leningrad continues."

His son, Nathan, who went to his father's rescue was also badly shocked when he tried to remove his father's body, but has recovered from the effects of his injury today.

Find's Father's Body
According to the information given by Coroner T. F. Nugent, Mr. Cory had gone to the pasture field about 5:30 o'clock to bring in the cows for milking. When he did not come back by 6 o'clock, his son Nathan, who was ploughing in an adjacent field, went to look for him (Continued On Page Two)

London Papers Discuss Attack On U. S. Boat

LONDON, Sept. 5.—British officialdom maintained a cagey silence today but London newspapers leaped headlong into a lively discussion of the submarine attack on the United States destroyer Greer.

London authorities declined to comment, pointing out that Britain was "merely a spectator" as far as the new "shooting" incident was concerned.

But the London Evening News warned that the United States can "no longer expect immunity" and the Evening Standard said the torpedo attack was a "small foretaste of what inevitably will follow if Germany ever is allowed to turn her full attention from the east to the west."

President Says Submarine "Shooting" Occurred On U. S. Side Of Atlantic

By KINGSBURY SMITH

WASHINGTON, Sept. 5.—In the most belligerent words he has employed since World War II broke out, President Roosevelt today promised the nation that the United States navy will hunt down the submarine which attempted to torpedo the American destroyer, U. S. S. Greer, and "eliminate" it if it can be found.

Speaking with great earnestness to a press conference, Mr. Roosevelt left no doubt in the minds of his auditors that the navy has been ordered to engage in shooting warfare with any Axis submarine guilty of undue conduct in American waters.

Plainly outraged at the incident—disclosed by the navy last night—the president, using the most emphatic language, asserted that the attack had occurred in broad daylight, that visibility was good and that the destroyer was flying the American flag and was on the American side of the Atlantic.

Seek To Benefit Small Factories

WASHINGTON, Sept. 5.—Small factory owners and their workers from all over the country today looked hopefully to Floyd S. Odom, New York industrialist, for protection from the violent dislocation which threatens as the full impact of war time economy makes itself felt once again on the United States.

President Roosevelt named Odom to head the newly created OPM division of contract distribution. It will be his job to keep hundreds of small plants and shops operating that otherwise would have to close down at least temporarily because of priorities curtailments and material shortages.

The president specifically charged Odom in an executive order with the major task of seeing that the little fellow gets his share of defense contracts, and that his plant is retooled for their fulfillment with a minimum of unemployment.

Japan Makes Further Protests

Representations Are Made To United States And Russia On Issue

FIRST AMERICAN TANKER ARRIVES

(BULLETIN)

(International News Service)
TOKYO, Sept. 5.—Ichi Kishi, a spokesman for the Japanese foreign office, announced today that Japan has sent further representations to both the United States and Russia regarding American tankers using the Straits of Japan en route to Vladivostok with aviation gasoline and other war materials for the U. S. S. R.

Japan previously sent representations to Washington and Moscow on the matter and several days ago announced that replies from the United States had proved unsatisfactory to the Tokyo government.

Hence the representations were renewed.
(Editor's note: It was disclosed in Washington yesterday that the first of the American vessels carrying oil supplies to Vladivostok had arrived there safely without being molested by Japanese warships.)

The son then went to the home of George McCoy, a neighbor, who with McCoy's son, removed the elder Mr. Cory's body. A doctor was summoned from Enon Valley, who worked over the body and directed that the New Castle firemen's rescue squad and Pennsylvania Power company rescue crews be notified. They responded and worked over the man's body for several hours, but were unable to revive him.

An investigation revealed that a bolt of lightning had struck a pole carrying the 4,600 volt line of the Power company across country, and had shattered the cross arm, allowing the line to sag down onto the wire fence on the farm of John Rybold, adjoining the Cory farm, which connected with the Cory's fence.

Not Likely Challenge
Under the heading "Torpedo," the Evening Standard commented:

"It is possible but hardly probable."

"During the past month the German government has adopted a new tactic towards America which seemed to forbid open defiance."

"Challenge or no challenge a deed has been done on the sea which America can allow no other powers but Britain and herself to rule."

ATLANTIC PATROL SHIPS ARE ALERT FOR NEW ATTACK

(Continued From Page One)

however, is whether Hitler may have ordered undeclared submarine warfare against the United States as a result of President Roosevelt's recent declarations indicating that this country will do all in its power to bring about the defeat of Nazi Germany.

Details Meager
Details of the dramatic incident are still meager. The Navy department's announcement, which exploded like a bombshell in Washington last evening, did not state the exact location at which the unidentified submarine launched its deadly torpedoes against the Greer.

Nor did it state the number of torpedoes that were fired. It merely said:

"U. S. S. Greer, en route to Iceland with mail, reported this morning that a submarine attacked her by firing torpedoes which missed their mark. The Greer immediately counter-attacked with depth charges. Results unknown."

The fact that the submarine's torpedoes missed their mark is seen in Washington as a stroke of fateful good fortune which has saved this country from the danger of almost immediate entry into the war.

Action of the destroyer's commander Lt. Commander Laurence Hugh Frost, 39, of Washington, D. C., in counter-attacking immediately with depth charges fulfilled President Roosevelt's warning some time ago that the United States Navy would defend itself if attacked, but would not initiate hostilities.

This first "shooting" incident between the American Navy and presumably an Axis submarine came as a direct result of the United States government's action in taking over the protection of Iceland July 7. The Greer was en route to Iceland with mail for the American armed forces there.

The fact that the Greer is an old four-stacked ship of the World War type, similar to those turned over to Great Britain under the destroyer-basis deal, led to the belief that the submarine might have mistaken it for a British vessel. However, the attack is understood to have taken place during daylight, and while the Greer's numbers were painted out, it was flying the American flag.

The attack on the Greer marks the first sea incident between the United States and the Axis powers since the sinking of the American merchantman Robin Moor by a German submarine in the south Atlantic on May 7th.

While the Navy department's official announcement did not mention the location of the incident, high ranking officials of the navy estimated that it occurred about 150 miles west of Iceland. They based this estimate on the scheduled arrival time of the destroyer in Iceland waters. It is believed the Greer may have arrived in Iceland during the night. If not, it is expected to be there today.

The Greer carries a normal complement of 113 men and nine officers. It is 314 feet long and weighs 1,200 tons.

Germany has proclaimed all the waters around Iceland as a war zone, but the United States has consistently refused to recognize extension of the zone under the President's pledge to maintain freedom of the seas.

Reports from the blood-soaked central area indicated the Russians are still staging frequent counter-attacks in a desperate effort to check the Nazi offensive in that sector.

marked. It bore an identification number and of course flew the American flag.

The attacks, he emphasized, took place in good daylight and good visibility.

In Line With Policy
Asked if the action of the Greer in dropping depth bombs after the submarine had fired two torpedoes at her was in line with the navy's policy, Mr. Roosevelt sharply asked his press conference what anyone present would do if a torpedo was fired at him.

"What will we do if the marauder is found?" a reporter inquired.

"We will eliminate it—or we will try to—Mr. Roosevelt replied.

He gave permission to quote the word "eliminate."

Mr. Roosevelt declined to give the destroyer's exact position at the time the attacks took place other than to say that it was definitely on the American side of the ocean.

A reporter asked if it might be possible that the submarine commander had made a mistake.

The president countered by pointing out that if the submarine had its periscope above the surface there was no excuse for a mistake in identity of the ship.

Employ New Method
He added, however, that German and Italian submarines, as well as those of other nations, employ another method of firing from beneath the surface using a listening device which picks up its potential targets' propellers as a range guide. This method of fire, Mr. Roosevelt said.

In view of the president's statement that the encounter took place definitely on the American side of the ocean, he was asked whether American policy permitted American ships to enter the combat zone declared by Germany to be west of Iceland to within a few miles of Greenland.

Mr. Roosevelt declared that in the first place the United States had never been notified of any such German zone, and in the second place it was said to be a blockade. This government never has and never will recognize a blockade.

The chief executive, anticipating questions on the incident in the north Atlantic, voluntarily opened its discussion by revealing that more than one attack had been made on the Greer and they in daylight.

The Parent Problem

By Garry C. Myers, Ph. D.

SENDING YOUNG FOLKS TO SCHOOL.

Who will plan and prepare the wardrobe and other equipment for the son or daughter going to college this fall? Usually the mother will make practically all the purchases of clothing, get those needing dry cleaning to the tailor, send off the laundry even for the girl, make alterations and do the necessary mending.

Sometimes these chores pile up heavily in the last week before college. Regardless of how much of such preparation for college the mother assumes, the slogan, "Shop early," applies.

Just why should the mother of a son or daughter able to go to college have to bear all these responsibilities? Because she has brought up her child to expect it of her. Youths going to college are creatures of habit just as their parents and younger brothers and sisters are.

Some parents whose son or daughter never has been made to assume such responsibilities might still induce the young man or woman getting ready for college to share in them, but they hardly will, nor should they expect much change in this youth all at once. Long-established habits don't change suddenly, even under the most favorable conditions.

Start Training Early. What we need always to keep in mind is the younger child who by and by may go to college or away from home to work. We need to think of his education from birth. Among the first steps in his learning to look after himself, cultivate self-reliance and responsibility, are his learning to feed himself and later to dress himself, bathe himself, put himself to bed at a regular hour, and learn to take care of his own clothes and other belongings.

Within the limits of a budget, the runabout can and should help select his clothing as they are purchased, being able when in high school to do so entirely alone.

An excellent means of helping the youth get good education in the choice of clothes is for him to have a definite amount assigned for a period of six months or a year which he may not exceed.

Yes, we begin at the crib to educate the child so he will be ready on entering college or leaving home for other fields of work, to take responsibility for his wardrobe and other equipment.

A selected list of books on choosing a college, getting ready for college, life at college, succeeding at college and the like, may be had, without cost, by writing me at 235 East 44th Street, New York City, enclosing a self-addressed envelope with a three-cent stamp.

Solving Parent Problems. Q. What is a good way for a parent to prevent tattling in a child.

A. By not paying the child for tattling through punishing the one he tattles on.

Q. "My little girl two years old refuses to feed herself. Letting her go without meals doesn't seem to help."

A. You didn't let her go long enough without meals. Have you held out for two or three days? And have you kept your lips sealed and shown no feeling about her not eating? If you muster up enough courage to go through with this and she develops nausea or other irregularities call your doctor.

NEW YORK—Wendell L. Willkie, 1940 Republican Presidential candidate, contends that it would rather be head-over-heels in debt than witness a German victory.

CAPE TOWN—South African Premier Gen. Jan Christian Smuts expresses firm conviction that the United States will enter the war on Britain's side.

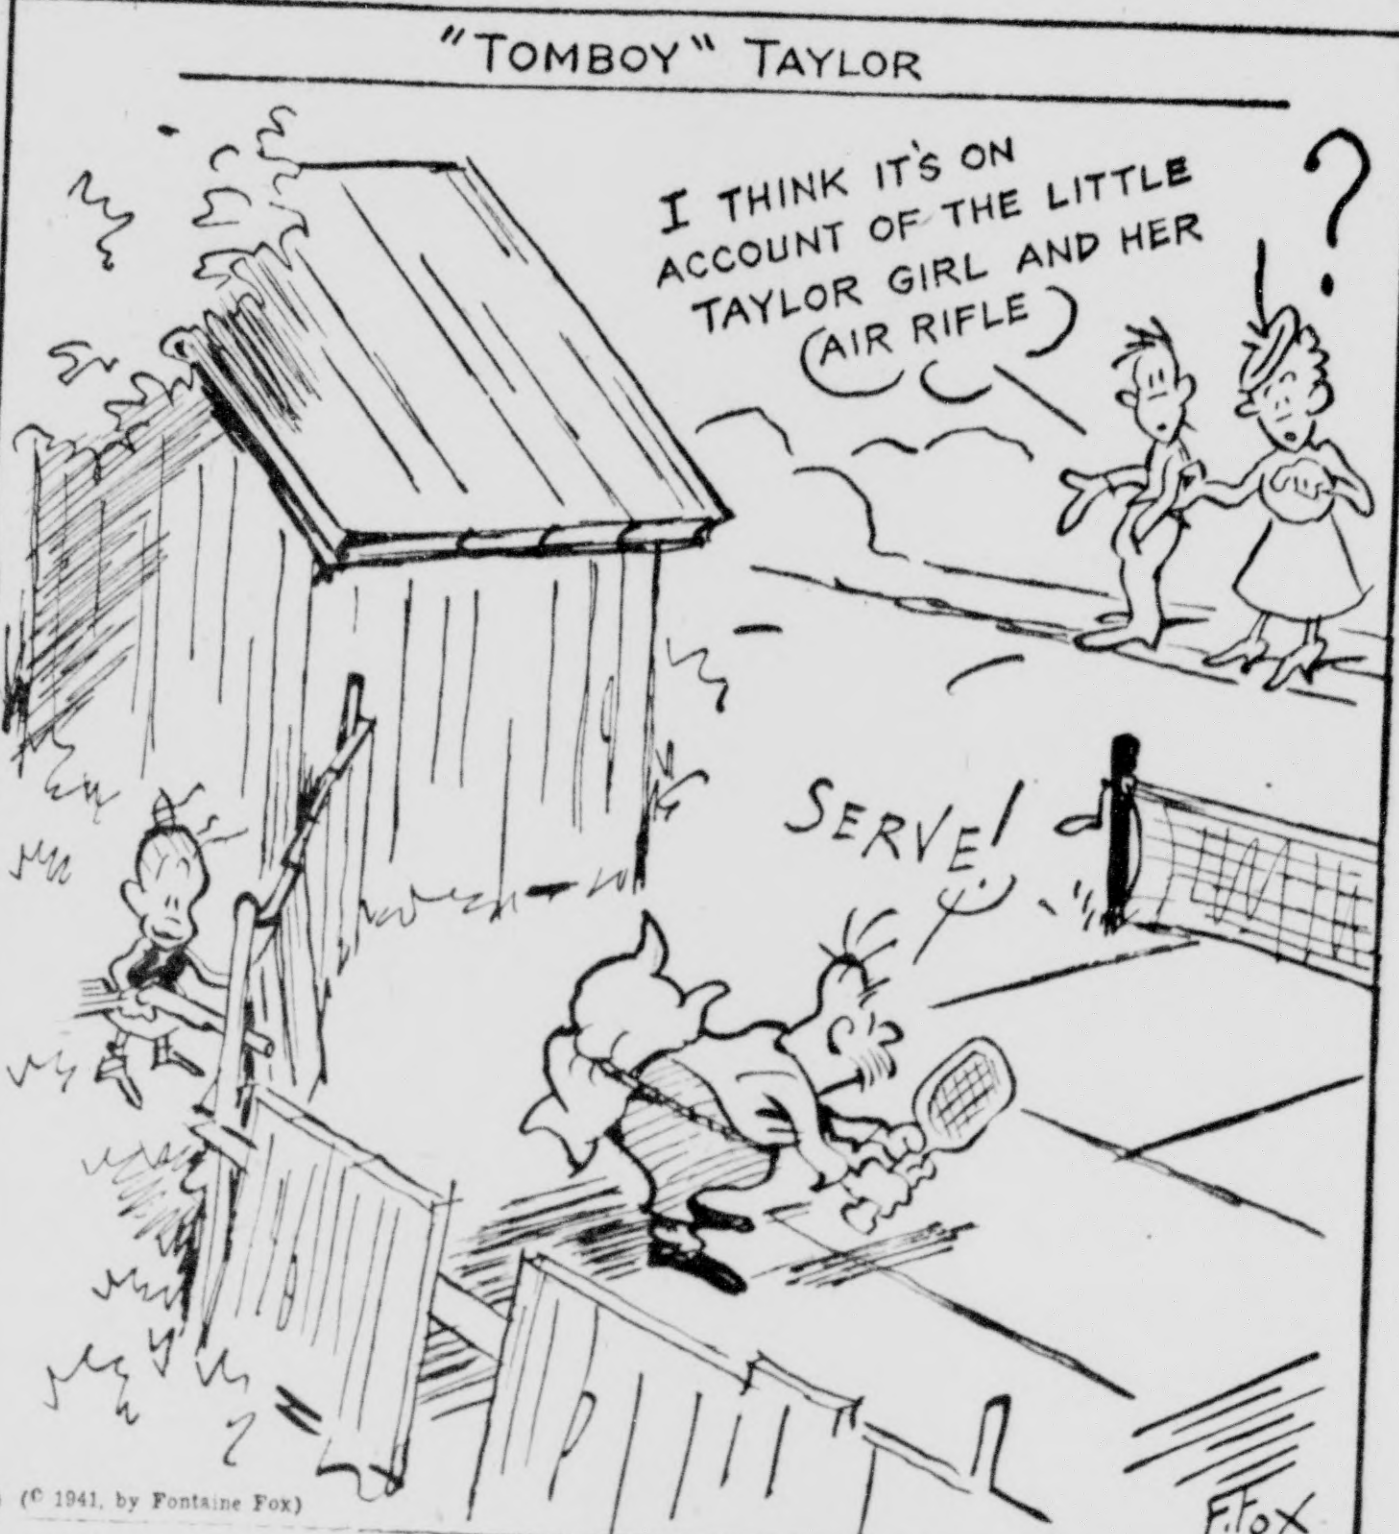

"The United States is not only helping Britain, she is preparing to come to the aid of the struggle. I am convinced the United States will enter the war and help decide it, as she did 20 years ago."

Words Of Wisdom. It is a great blessing to possess what one wishes, said one to an ancient philosopher.—It is a greater still, was the reply, not to desire what one does not possess.

But if a two-gun neighbor says there isn't room in this world for you and him both, it takes a lot of optimism to think you aren't in danger.

A SUIT THAT FIT. A trainee in the army induction center had just passed his physical examination, and was hurrying to a telephone to call his girl friend when he passed a captain without saluting. Stopping the new arrival the captain said:

"Wait a minute, soldier, where are you going in such a hurry?" The youth breathlessly explained his errand.

"Well, take a look at me," said the captain. "Do you attach any special significance to this uniform?"

The soldier looked the officer over carefully then grinned and said: "Why, you lucky stiff; you've got a suit that fits."

Good Taste

See W. & P. Post Office

"If I suggest to a group of girls that we stop at a fountain for sodas, am I technically obligated to pay for the whole lot?"

Answer: This is the era of the "Dutch treat" it is most effective for bringing together friends who otherwise might avoid suggesting that a group assemble for refreshments, luncheon, dinner or the movies—for fear of having to pay the whole bill. Thus when a group of girls goes out, usually each pays her own bill unless the one who suggested the date explains that it is to be her party. When no such suggestion is made ask what your share of the check is and be ready with open purse to pay it.

The Dutch treat probably started with daily gatherings of business women when frequent meetings eliminated the embarrassment of check grabbing and confusion as to whose treat was whose. If, however, you are invited for a meal or refreshments and the one who suggested it insists on paying the bill, let her do it. Of course, when a man issues the invitation, he should assume the cost. Do not then offer to pay your share.

Question: I have received an invitation to a party to which I am very anxious to go, but I have an out-of-town guest staying with me. May I ask if I may bring him along, or must I send my regrets and stay home. I had previously accepted the invitation?—Mrs. T.

Answer: You may properly ask your hostess for an invitation for your out-of-town guest. Explain your predicament to her and I am sure she will tell you to bring him along. An extra man is always welcome at a party. If your invitation were to a luncheon or a dinner there would be a different light on the problem. Never ask for an invitation to a meal for anyone. This would call for an extra place at the table, which would no doubt result in inconvenience for everyone.

Question: Will you please give me some suggestions as to what to serve at a wedding reception.—G. G.

Answer: Morning weddings: Serve a real breakfast of hot cakes and bacon or scrambled eggs. French fried potatoes, hot rolls, coffee and wedding cake. At noon: Serve a luncheon, hot or cold. If the former, I suggest chicken patty, peas, a salad, rolls, coffee, wedding cake. Chicken salad may be substituted for the sliced meats. Mid-afternoon: Serve tea, sandwiches and wedding cake. Early evening: A dinner; late evening: Supper.

THE GOOD AMERICAN.

When you arise at early dawn,
Do you bless the land you live upon?
Do you give thanks for another day
And give three cheers for the U. S. A?

You do?—Well, then,
You are a good American.

Did you sit down to breakfast
With all your family there?
Did you give thanks for food and health?

Did you offer up a prayer?
You did? Well, then,
You are a good American.

When you watched your child at play
Did you lift your eyes and say:
"Thank Thee, Lord, for fresh air and sun."

And the happy laughter of my little one?
You did? Well, then,
You are a good American.

On Sundays do you go to church
And do you love your neighbor?
Do you give thanks for strength
To perform your daily labor?

You do? Well, then,
You are a good American.

When you retire tonight
Will you kneel down and pray?
And give thanks unto the Lord
For the good old U. S. A.

You will? Well, then,
You are a good American.

Oh, let us all be happy here
In a land so free from fear.
No anxious roar, no firing gun,
To blast the land we live upon—
Our grateful thanks O Lord to Thee.

SPAB Is Mixture Of Inharmonious Men
Defense Groups Don't Get Along Well
Too Many Department Heads In Bureaus

By CHARLES P. STEWART

Central Press Columnist

WASHINGTON, Sept. 5.—If seven separate ingredients refuse to mix, and it's essential to HAVE 'em mix and harmonize, will they mix upon being mixed forcibly, with the addition of an eight ingredient to what's still to remain a seven-ingredient concoction?

We'll learn as our new emergency supply and priorities and allocations board begins to get really busy.

As everybody has known, our various national offices, created to speed up production of defense and aid-the-democracies supplies, while still giving our civilian population enough to live on haven't pulled together very effectively.

They haven't exactly quarreled but they've disagreed. The result's been that the whole joint program's been badly snarled and interfered with.

William S. Knudsen, representing management, and Sidney Hillman, representing labor, have been twining production bosses Secretaries Henry L. Stimson and Frank Knox have hollered for the requirements of the war and navy departments respectively Leon Henderson has spoken for civilian needs, at reasonable prices interests have conflicted. Not much bad language has been employed, but wheels haven't turned with the velocity that the situation calls for.

Judge Rosenman's Idea. So President Roosevelt called on his old friend and adviser, Judge Samuel I. Rosenman to come to Washington from New York and do some co-ordinating.

"Sammy the Rose," as F. D. R. calls him, evolved the idea of the supply priorities and allocations board, to handle matters, as a single, central authority, bossing the purchases of raw materials, expediting the processing of them, dividing up their distribution between military and civilian ultimate consumers and seeing that prices are kept within reason, thus avoiding inflation.

P. D. R. promptly created the board by executive order.

Its members include Bill Knudsen, Sidney Hillman, Henry Stimson, Frank Knox and Leon Henderson. Now, if those chaps could agree as heads of separate independent purchases, can they agree as fellow members of one commission? That remains to be demonstrated.

But Bill, Sidney, Henry, Frank and Leon are only five in number, and this new board's announced as a seven-man aggregation.

Well, Special Presidential Lend Assistant Harry L. Hopkins is a sixth.

Plus Bill, Sidney, Henry, Frank, Leon and Harry are Vice President Henry A. Wallace and Donald M. Nelson, hitherto O.P.M.'s director of purchases.

That makes eight, according to my arithmetic not seven.

Henry Wallace is chairman, and I suppose the chairman of a board has to be a member of it, unless he's ex-officio.

That appears to leave Don Nelson out in the cold. Yet he's the board's executive director, the guy who'll have more to do with its actual activities than all the other seven put together.

Just how an executive director rates alongside a chairman I'm uncertain, but the general surmise is that that board's real boss will be Nelson. Furthermore, he's argued all along for central control of production and distribution of supplies for the emergency. Apparently

The World and the Mud Puddles

WHY BE JITTERY

There are a great many of us wondering what all this aluminum and gasoline business is about. There is a nigger in the woodpile somewhere.

There is no end of aluminum in the ground, although there are places where more aluminum can be found than other places, but every shovel full of dirt possesses aluminum.

As for oil, there are a dozen States in the Union producing oil in great quantities. In California the oil well derricks are planted just about in the same way as they plant orange trees—in long rows—and every oil field has many of these rows. It is the same in Texas and in Oklahoma.

Mr. Hicks, who probably knows very little and not much more about the oil business than does the writer, is breathing out threats respecting gasoline shortages and declaring that it is impossible to deliver as much gasoline to Atlantic seaports as is demanded by gasoline users. Now, there are thousands and thousands of tank cars. There is a great pipe line running from Texas and Oklahoma oil fields as far East as Hammond, Indiana, and there is at least one pipe line running into Bayonne, New Jersey.

The railroad companies would welcome the transportation of tank cars full of oil and they have plenty of them. Why are they not used to the greatest possible extent? I know they are not, for I see miles of them lying in railroad yards unused. Are there political puppets in Washington being inspired to interfere with the business of the oil companies and the railroad companies, to say nothing of the great multitude of oil trucks? Are they being inspired by the enemies of the Aluminum Company of America and would they do anything to injure it—or what is the matter?

We can understand about shortages of material for use in the manufacture of implements for defense, where the articles needed must be transported from far distances to these United States. We can understand why mylars are being compelled to wear stockings made of some substitute for silk, but we cannot understand why there should be a shortage anywhere in these United States of oil, aluminum or copper.

There is a great deal of ridicule being heaped upon the propaganda that comes out of Berlin, Moscow and of London, to say nothing of Paris and Vichy. But I really believe that the present administration in Washington is guilty of more propaganda than all the rest combined. It seems to me the determination of the present administration in Washington to frighten the citizens of this country. And for what purpose?

Just how an executive director rates alongside a chairman I'm uncertain, but the general surmise is that that board's real boss will be Nelson. Furthermore, he's argued all along for central control of production and distribution of supplies for the emergency. Apparently

(Continued On Page Seven)

That makes eight, according to my arithmetic not seven.

Henry Wallace is chairman, and I suppose the chairman of a board has to be a member of it, unless he's ex-officio.

That appears to leave Don Nelson out in the cold. Yet he's the board's executive director, the guy who'll have more to do with its actual activities than all the other seven put together.

Philosopher says the two easiest ways to get into trouble are to have too much cash or too much credit.

And though I'm two years old and more,
Since in the city I was born
I'd never seen great bins of corn
Or stood so close to cows before.

They let me pat each slippery nose
And stroke the coats as soft as silk.
And helped the man the gate to close.

Now I am back at home again
And wish that every boy like me
So close sometime to cows could be
And walk behind them down a lane.

The way to eat corn on the cob
Is the way you like to eat it even
If you have to go to the barn or cellar to do it.

Hints On Etiquette

Table manners are very important, and some people who do not believe this are thought crude and make a poor showing in society. It is perfectly proper to enjoy food, but don't waste into it and become so absorbed in eating that you seem more interested in that than in the people with whom you are dining.

In short, drafted men are not illing to be bored for their country.

News And Views From Pennsylvania Capital

(International News Service)
HARRISBURG, Sept. 5.—Despite the official blessing given John S. Herron, Pittsburgh, as chairman of the Allegheny County Republican Committee, there is a quiet move underway to strip him of most of his power. In political circles power means patronage and county leaders who selected Herron are determined to get as much as possible after the lean years under the whip hand of Frank J. Harris, who resigned after years of battling the state organization. The situation in Allegheny county shows the county organization backing George D. Wick for mayor, and Thomas E. Whitten for sheriff. James F. Malone, defeated for state treasurer last year on the G. O. P. slate, has thrown support to Hamar D. Denny, Jr., for mayor and Robert J. Corbett for sheriff.

To top it all off, U. S. Sen. James J. Davis, prominently mentioned for

pressed their hope that Torrance would be forced to resign. During the Willie for-president campaign, the three men banded together under the leadership of Frank Harris, former state senator and resigned Allegheny county chairman, to attempt to force the state committee to abandon what they termed passive and left handed support for the Willie campaign in Pennsylvania. They were unable to oust Torrance then because of the committee's rules but repeatedly explained they were waiting for the meeting in May, 1942.

The trial balloon released by State Sen. John H. Dent, Westmoreland Democrat, boosting Ex-Gov. George H. Earle for governor again next year is viewed with doubt by several Democratic leaders at Harrisburg. They were confident that Earle, now minister to Bulgaria, could carry the primary election over any other candidate, but questioned whether he could win the

general election, especially if Senator Davis is the opposing candidate.

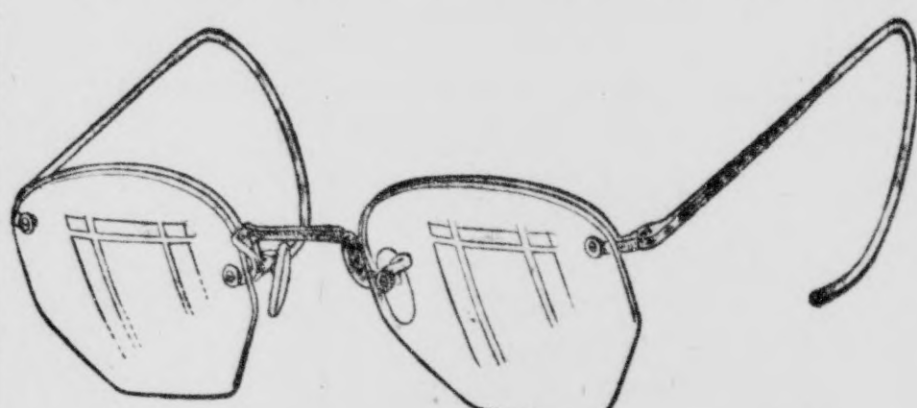

GAME COMMISSION WILL AID SCOUTS

(International News Service)
HARRISBURG, Sept. 5.—The game commission has suggested that a c. h. sportsmen's organization should arrange to have tanned and turned over to the local Boy Scout troops any deer skins secured by their members next fall.

The Boy Scouts are willing to co-operate in the program of making finished leather articles for use by enlisted men in the military forces. The program has the endorsement of national scout executives and the officers of the federation of sportsmen's clubs.

So far, the best war joke is that one about the leaders eating the same kind of food provided for little people.

FITTING GLASSES TO SCHOOL CHILDREN

... requires several types of skill we've found—

FIRST... The examiner must have modern instruments and be able to find the correct prescription without questioning on test letters.

SECOND... He should carry a large assortment of children's frames and know how to adjust them so that they will be comfortable and becoming.

THIRD... He should be honest and never prescribe glasses unless quite certain they will benefit.

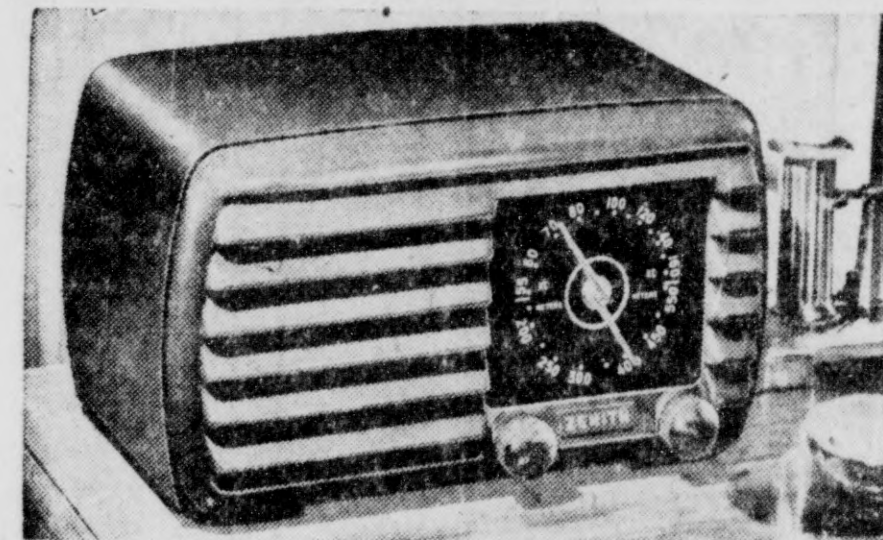

FOURTH... He should know quite a bit about child psychology so he can get their co-operation and quiet their fears.

We ask for your patronage on the basis of these requirements... and shall be glad to talk over any problem you may have concerning your child's eyes.

To Observe Golden Wedding At Rose Point September 7

MR. AND MRS. R. M. BLEAKNEY

In memory's golden book of happy events, some of the most shining pages will be devoted to the golden wedding anniversary of Mr. and Mrs. Robert Manning Bleakney, to be celebrated at their home, at Rose Point, on Sunday, Sept. 7. Open house will be observed at the Bleakney residence from two until four o'clock in the afternoon and from seven until nine o'clock in the evening, with all their relatives and friends being invited to call. At noon a family dinner will be held at a nearby dining room.

Before her marriage, on September 7, 1891, the bride of half a century was Miss Hanna Reesman, daughter of George W. and Margaret Anna Reesman, of Butler county. Mr. Bleakney is a son of the late William Robert and Nancy Manning Bleakney, early Rose

Point residents. They were married at New Castle. During their married life the couple have lived at Ellwood City and Ross Point. They are enjoying fairly good health and are able to be about their home and the community. At the present time Mr. Bleakney is serving as justice of the peace. They are well known and highly regarded by a legion of friends, neighbors and relatives. To this couple were born nine children, namely, E. S. William, Mrs. Hazel Houk, Mrs. Clyde Wilmer, E. E. and L. D. Bleakney, all of Ellwood City; Charles W., of Pittsburgh; Mrs. Ida Minter, of Rose Point, and Mrs. Charles Brown, of Harlansburg. They also have 24 grandchildren. An unusual blessing is the fact that there has never been a death in the immediate family.

Special guest attending were Mrs. Violet Sansosti and Mrs. Mary Vincent. A delicious repast was served by the hostess, with the aid of Mrs. Sansosti.

Mrs. Antoinette Francio has invited the club to her home, 513 Friendship street, on September 18.

LUNCHEON-TOUR FOR WALMO GARDEN CLUB

The lovely gladiol gardens surrounding the home of Mrs. Joseph Forney of Maitland Lane, Walmo, provided an ideal setting for the first fall meeting of Walmo Garden Club members, on Thursday afternoon, when she received the group for a prettily appointed 1 o'clock luncheon.

A tour of the gardens was a special feature, the Forneys having upwards of two thousand blooms, in a variety of colors. Adjoining to the living room, a display of marigolds in pottery claimed attention, and Mrs. W. C. Hileman, who is an authority on flower arrangement and flower judging, gave an especially interesting talk. Roll call was answered with each telling of "My Most Successful Annual."

Plans were completed for the annual flower and vegetable show at the Walmo school, to be held Tuesday, September 9, at the Walmo school. Prizes will be awarded by the club, for the best displays, etc. On October 12, the club will meet for a similar session, the hosts to be announced.

LONDON BRIDGE CLUB OPENS FALL SESSIONS

Miss Jane Davis was hostess to members of the London Bridge club for their initial meeting of the season, Thursday evening, in her home on Scotland Lane. Feature of the evening was the drawing of names for "Mary Brown" gifts.

Three tables of bridge were in play, with Miss Ellen Melnyk winning both first prize and gallanter, and Mrs. William Rech capturing second prize. A lovely hostess gift was presented to Miss Sadie Travlers, a special guest.

At an appropriate time the hostess served dainty refreshments, aided by her mother, Mrs. E. J. Davis. Miss Catherine Carr will be hostess for their next meeting, Wednesday, September 25 in her home on West Washington street extension.

Will Register Volunteers For State Defense

(International News Service)
HARRISBURG, Sept. 5.—Plans for a statewide registration of civilian defense volunteers were mapped today by Dr. Arnaud C. Marts, director of the Pennsylvania Council of Defense.

Tens of thousands of persons will be asked to serve as air raid wardens, in campaigns to be undertaken soon. In Philadelphia alone, 18,400 wardens will be enlisted, and registrations are being accepted at police stations.

Persons having executive experience will be invited to fill zone warden vacancies and to direct the defense of civilians against air raids. Air raid wardens will be taught how to instruct their neighbors concerning precautions against bombs, distribute gas masks, spread alarms of planes or gas and aid in rescue work. Plans for the organization of industries against damage, by fire or otherwise, have been completed.

In cities, a signal system will be established to advise air raid protection workers of damage elsewhere in the city and to assist in the movement of auxiliary firemen and policemen from area to area.

Plans engaged in defense manufacturing have been surveyed for fire hazards and firemen are instructing auxiliary firemen, unpaid volunteer workers.

What's What At A Glance

(Continued From Page Four)

he converted "Sammy the Rose" to his idea. If so, it sounds not unlikely that "Sammy" recommended him to F. D. R. as the best real head of S.P.A.B. operations.

Nelson Over Knudsen
Nelson, a former Sears, Roebuck & Co. official, is a mild individual, who undoubtedly will do his utmost to avoid friction with S. P. A. B.'s membership. In effect he's been boosted over Bill Knudsen's head, which might be expected to antagonize Bill. Bill's mild, too, though, so perhaps he won't be resentful.

But Leon Henderson isn't mild. If he disagrees with Nelson there'll be fireworks on Leon's part.

A mitigating circumstance in connection with the Nelson-Henderson situation is that Leon's a civilian supplies specialist and that Nelson's quite pro-civilian. However, it's to be remembered that Secretaries Stimson and Knox are as pro-military as they make 'em. Sidney Hillman's pro-labor and Nelson isn't particularly so. He's pro-employment. As such, he's no extreme New Dealer, but Harry Hopkins is—ultra. Henry Wallace might class as a neutral.

Whether or not those ingredients, forcibly shaken up together, will mix any better than previously, is a matter of guesswork.

Lawrence County Townships Get \$7,913

(Special To The News)
HARRISBURG, Sept. 5.—Auditor General F. Clair Ross today approved requisitions for regular September-quarter payments totalling \$982,985 for the construction and maintenance of roads and bridges in 1410 second class townships of the Commonwealth.

Still to be received from the Department of Highways are requisitions representing another \$79,514 due 104 townships which have been delayed temporarily. With these requisitions approved the total payment will amount to \$1,062,500 and be shared by 1514 townships, Mr. Ross said.

Payments include:

A large attendance was seated around colorfully appointed tables, and the speakers table, were each given a shoulder corsage.

Tribute was paid to Mrs. Henry Cohen, outgoing president, to Mrs. L. Zieve, honorary vice-president and Mrs. B. Kline, honorary president, the latter who planned the program but was unable to attend.

"America" was sung by the assemblage, with Miss Jeanette Kulkin, accompanist. Rabbi Norman Diamond offered the invocation preceding the serving of a delicious luncheon.

Words of appreciation were spoken for the chairman of reservations, Mrs. David Victor, who helped tremendously in making the day such a fine success, and Mrs. J. Cobb and the Tifereth Israel Sisterhood who prepared and served the menu.

Miss Jeanette Kulkin, talented pianist, and a surprise of the event, was another guest artist, Miss Leah Weissman of Pittsburgh and a graduate of the Juilliard School of New York. Miss Weissman, a relative of the new president, pleased with three vocal selections.

Speaker of the afternoon was Mrs. Max Reinhardt of Ellwood City, her subject dealing with "What We Love America For." Her presentation was given in the form of a playlet, as she dramatized, six different types and nationalities of boys, relating their careers and accomplishments in America.

In closing, all joined in singing a selection, and Rabbi Gilbert Elefant offered the benediction.

Labor Situation Is Discussed By Babson

By ROGER W. BABSON

(Copyright—1941—Publishers Financial Bureau, Inc.)

BABSON PARK, Mass., Sept. 5.—

The labor situation in certain sections of the United States and Canada is very provoking. I do not say "serious" because only 15 per cent of all United States workers are engaged in defense production; while at the worst only a very small percentage of the total is on strike at any time. Strikers make good feed for newspapers. They always increase circulation, and, hence, naturally are played up for all they will stand.

The workers' argument is that their sons who have been earning \$100 to \$150 per month have suddenly been pulled out of their jobs and given \$31 per month in the army. "Hence," they say, "the remaining members of the family must have more to balance the family budget." This sounds reasonable; but is "striking" the way to bring it about? I say "No." Anything gained today by holding a pistol at your neighbor's head will surely be lost tomorrow.

CIO vs AFofL

The truth is that the labor unions have split into two hostile groups—the CIO and the AFofL. The leaders of both are desperately competing to see who can get the most for their members—without any regard

for the nation's welfare. Unfortunately, the more radical group—the CIO—has the sounder program; while the more conservative group—the AFofL—has an out-of-date setup.

The CIO organizes one industry independently of what the workers do. For instance, under the CIO, the Detroit electricians who work in the auto industry are in the same union with the auto machinists, auto painters, etc. But under the AFofL, all the Detroit electricians are in the Electrical Workers Union while the Detroit painters are in the Painters Union—irrespective of whether they work on autos or houses.

Government Interference

Another unfortunate situation is the anti-employer attitude assumed by Madame Perkins. Having served the nation as Director General of Information during World War I, I know the great importance of an impartial Secretary of Labor at a time like this.

The wage workers of 1914-18 were a large factor in winning World War I, because of the then wise leadership of Secretary of Labor Wilson. If, however, Hitler is victorious in World War II, I am afraid history will blot it out on the Labor Department and the United States Labor Relations Board. This is no time to throw monkey wrenches into industry by playing politics. For further particulars, I refer readers to the experiences of the Ford Motor company.

Labor leaders seem to forget that

the value of their insurance policies, savings bank accounts, and even old-age pensions depends 100 per cent upon the corporations for which they are working; making profits. Working conditions have been bad in certain localities and I honor those labor leaders who have rectified them; but these labor leaders should know when to stop.

Already I note a tendency in the part of careful investors to sell out their holdings in industries where labor leaders have recently secured control. They know what has happened to dividends under such conditions. It will probably take years for the motor industry to again earn what it did previous to 1941. Neither wage workers nor stockholders will get as much in "food, clothing and shelter" as before it was CIO unionized.

America's Opportunity

America is today at the parting of the ways. One road is paved with dissension, waste and political pressure blocs seeking their own selfish interests, forgetting the nation's good. The other road is paved with co-operation, conservation and truly representative government. I have faith to believe that employers, wage workers and congressmen are going to be wise enough to choose the latter road.

And these same principles apply to the international situation. The small independent European nations must forget their old traditions. They must combine. The peoples of these nations must quit wasting either human or material resources for exploitation or profit. Both collective bargaining and representative government are sound; but "mob rule," whether in labor unions or the halls of congress, must stop in order to save democracy.

Right Or Left?

We hear too much about personal liberties and the "right" to strike rather than to arbitrate; but arbitration is right. Both employees

and labor leaders give too much thought for themselves and too little to the 130,000,000 consumers in this country. Only as more is produced, there more to divide. Wage workers need more employers and hence should encourage them.

Why do we need to look to the Right or to the Left? Why need we be "either pro-labor or anti-labor"? Why can't we look straight ahead? Let us follow the English system of negotiating as an entire industry with ALL the employers and employees of that industry be represented. It is wrong for labor leaders to sandbag only those corporations which have had efficient management.

Two Facts To Remember

1. A pendulum must swing as long as the clock runs. This applies to labor's attitude, wages and hours as it applies to profits, commodities and politics. Today, labor is in the saddle and holds the whip; but labor leaders will soon overreach and the public will then react against them as it has reacted against Wall Street. Then the employers—yes, and Wall Street—will again get in the saddle and hold the whip until they again abuse their trust. And so it will go!

2. There is but one solution. This will come only as all of us get more true religion. No one group in industry or politics will indefinitely take orders from some other group; but all groups should be willing to "take orders" from God. The same principle applies to nations. Peace will never come by any one race ruling the world. Peace will come only as all nations gradually acknowledge God as their leader, savior and friend.

Governor James Blames Politics For Fund Delay

(International News Service) HARRISBURG, Sept. 5.—The federal government's withholding of approximately \$500,000 toward the administration of unemployment compensation laws in Pennsylvania, pending outcome of an investigation into the state office here, was blamed by Gov. Arthur H. James today on "politics."

Although the August grant to pay for the federal government's share of expenses of the division of unemployment compensation has not been formally withheld, according to officials, only a small sum was received from Washington to pay for Civil Service examinations held last month.

Government grants to the state, however, were held up last spring as a result of charges that the state office was not meeting provisions of the Social Security laws.

Governor James defended State Secretary of Labor and Industry Lewis G. Hines and asserted the administration had made "every reasonable effort" to cooperate with the Social Security board.

"We asked the Social Security board to amend several harsh rulings applying to Pennsylvania but we can't get them to modify a thing," the governor told his press conference.

"I don't think you'll find many days between now and November, 1942, when the Democrats won't find something wrong with the state government."

James said he was convinced that Democrats in the legislature tried to block passage of Civil Service legislation "for no other reason than they thought that the federal government would attempt to take over the service."

The Social Security board, it was said, legally could take over administration of unemployment compensation if it was found that state officials declined to live up to the requirements for a merit system.

Direct relief in Pennsylvania cost \$13,000,000 in June and July, or \$3,000,000 more than had been anticipated, he said. Administrative costs were said to have been higher during those months. At least 50 per cent of the relief load was described as "static."

Latest available figures showed that the state was providing direct relief to more than 188,000 persons.

URGES QUOTAS BE INCREASED

(International News Service) HARRISBURG, Sept. 5.—Dr. William Mather Lewis, state selective service director, today appealed to local boards, not affected by the infantile paralysis ban, to voluntarily

raise by 10 per cent the current quotas of men they will deliver for final examinations.

Revising Pennsylvania's final examination schedule for Sept. 16 to Oct. 11, Dr. Lewis said that only 13,358 men will report during the period, instead of the 15,158 as previously announced.

The reduction was caused by the postponement of physical examinations and induction of registrants from 11 counties where the epidemic

has been most prevalent. A total of 65 of the commonwealth's 422 local boards are affected by the order.

(BULLETIN)
(International News Service)

Roof-top spectators were given a spectacular aerial show as shells burst close around the Russian bomber that was shot down.

After receiving several direct hits the plane caught fire and then plunged to earth.

Another German announcement said Nazi planes during the night raided the Gulf of Suez, sinking an 8,000-ton vessel, the City of Oakland, heavily damaging a 3,000-ton ship and damaging another 5,000-ton vessel.

NEW ATTEMPT AT ASSASSINATION

(International News Service)

VICHY, Sept. 5.—A new attempted assassination attempt in Paris was reported in advices to Vichy today. Dispatches said Marcel Guittou,

former French Communist deputy who later joined Jacques Doriot's Parti Populaire Francaise, was shot and seriously wounded in Paris during the night.

The new attempt followed the recent wounding of former Vice Premier Pierre Laval, "Collaborationist" Editor Marcel Deat and two other men at Versailles some days ago. All four are recovering from their wounds.

Old Slabtown Scholars Reunited Last Evening

Pupils of the old Slabtown school, now the Lincoln and Garfield building on Long avenue, were reunited again Thursday evening, when the annual gathering of those pupils who attended the school prior to 1900 was held at the school building.

After a period spent in getting acquainted again on the school grounds, the assembly moved into the auditorium, where an informal program was carried out with Rev. Robert D. Withers presiding as master of ceremonies, being introduced by President Harry Clark.

Group singing during the evening was led by Chester P. Reynolds, with Mrs. Robert Fleming serving as accompanist.

A memorial service honoring those who have passed on during the year was conducted by Rev. Withers, the memory of the following being honored: Clara Barber Hoover, Helen McBride Garraway, Grace Lent Simpson, David Lewis, Mary Ella Thompson, Elizabeth Williams Kelley, Harry L. Howard, Maude Seaman Wright, Morris Heinline.

The guest speaker of the evening was Fred L. Rentz, president of The News Company, who while he didn't attend the old Lincoln school, had many vivid memories of its early days, and his wife was one of those who received her early education there. Mr. Rentz recalled the various buildings which housed the school and related some humorous incidents of early school days in New Castle.

Hon. R. L. Hildebrand, ex-judge of the county courts recalled many of his experiences with the teachers of the old school, while Dr. Samuel W. Perry, named the various families who lived in the community in those good old days. Miss Anna Perry brought greetings and recalled some of the old days. Samuel Armstrong, of Sewickley also brought greetings and a reading was given by Mrs. Josephine Sanford Hoover.

Prizes were awarded to the oldest teacher, Mrs. Maude Whinnery Hamilton, who taught her first term in the school in 1888; to the oldest girl present, Mrs. Anna Clark Haesly; the oldest boy, William Jones; the most recently married young couple, Mr. and Mrs. James Ball; and the oldest married couple, Mr. and Mrs. William Fletcher, 47 years; while the door prize went to Mrs. Maude Thompson.

The permanent officers and committees, who have served the association for a number of years, were re-elected for another year and given a vote of thanks for their splendid work in arranging the present reunion.

A handsome gift was given to Rev. and Mrs. Robert D. Withers, yesterday being the 28th anniversary of their wedding.

Flowers and messages were sent from a number who could not be present for the reunion, and the flowers were in turn distributed to members who have been ill.

There were sixteen present at the reunion who attended school on the opening day of the building in 1881.

After the program had been concluded, refreshments were served by the refreshment committee.

In Religious and Fraternal Circles

Spiritualist Church.
After being closed for the past two months, the First Spiritualist church will resume services this coming Sunday, September 7. The service will start at 7:45 o'clock.

Executive Committee.
A promotional program for the years activities and the coming 78th annual convention of the Pennsylvania State Sabbath School Association which is to be held in Harrisburg October 8, 9 and 10 were the chief matters of discussion at the regular meeting of the Executive Committee of the Lawrence County Sabbath School Association which was held at the First Baptist church of this city, Thursday evening.

Mrs. D. W. Nesbit reported that transportation would be furnished to delegates at a cost of about one cent per mile, and that those having room for extra delegates or wishing transportation, should notify her. Mr. Strickler stated that letters had been sent to district presidents giving an appointment of delegates for each district. Mrs. H. F. Magill suggested that Sunday Schools be visited in behalf on convention, and appointments were made.

Section G. Y. L. B.
Section G of the Y. L. B. class, Third U. P. church, met Thursday afternoon in the home of Mrs. Josephine Munzel, Butler road. Sewing was the chief diversion. A former member, Mrs. Anna Wolford, now of Charleston, W. Va., was a special guest.

A delicious lunch was served by the hostess at the close of the meeting.

Gospel Tabernacle.
There will be a prayer service to-night at 7:30 in the home of Mr. and Mrs. Mert Allen, South Schly street, west side, sponsored by the members of the Gospel Tabernacle, 210 Pearson street. The Young People's society will hold a prayer service in the church under the direction of Harry Karns at the same hour.

Daily Dozen

(From the Medical Society of the State of Pennsylvania)

Eczema in infants is very trying to mothers.

It is distressing to see the baby's skin break out.

The infant is restless and tries to scratch.

The cause of eczema is sometimes quite difficult to locate.

Eczema may spread over the entire body.

Generally, it is seen on face and in bends of elbows and knees.

There is a strong hereditary factor.

Other members of the family have had eczema, hay fever or asthma.

There are certain foods which apparently make eczema worse.

Eggs, strawberries, shell-fish are often found to cause eczema.

Dropping certain foods from the diet may indicate the trouble.

It may take several months to locate the cause of the eczema.

VICHY PROTESTS TO WASHINGTON

Alleges "Campaign Of Lies"
Against Ambassador By
Some Newspapers

(International News Service)

VICHY, Sept. 5.—The Vichy government formally protested to Washington today against a "campaign of lies" alleged to have been launched particularly against Ambassador Gaston Henry-Haye and the French embassy in the American capital by some American newspapers.

"After Chief of State Marshal Henri Philippe Petain's appeal to the American press for more understanding, the attacks have created sadness in France," the protest said.

Meanwhile, Vice Premier Admiral Jean Darlan received Japanese Ambassador Kato this morning.

Public Works Planning To Care For Post-War Slack Urged By James

INVENTORY OF NEEDS IS MADE

(International News Service)
HARRISBURG, Sept. 5.—A planned public works program for communities to take up the slack after the present national emergency is urged by Secretary of Commerce Mark S. James.
James admitted the importance of the defense program but advised

that the communities and their problems will be here long after the present emergency ends. He said:
"One of the most important aids which will provide a partial solution to these coming problems is to have available and ready for execution a planned program of public works. This program could begin to function immediately after the present emergency is ended thus cushioning the inevitable shock which industry and labor will feel."
"At the present time an organization is being assembled for the purpose of ascertaining the extent to which a public works program can go in this respect. The first step in this direction is the taking of an inventory of those public improvements which will be necessary over a period of years and in the near future every community in Pennsylvania will be contacted for their opinions and suggestions so that a program can be planned intelligently."
"Many persons do not realize that collectively the amounts of public funds expended every year for municipal improvements and repairs

are enormous. These expenditures, if controlled and properly planned, can be helpful not only for the added physical convenience they give to the people, but also can furnish needed employment for many workers when they are released from their present occupations due to the termination of the national defense program and while peace time jobs are being developed for them.

Report Suspect Admits Attacks On Two Women

(International News Service)
LOCK HAVEN, Sept. 5.—After more than four hours questioning, Roy K. Hauk, 21-year-old Bellefonte repairman, admitted attacking two Clinton county women in the last five weeks, city and county police announced today.
Hauk, who told police he was married, was apprehended last night after he had knocked down 19-year-old Ruth Andrews as she was returning home from a nearby theatre.

The girl, who suffered only from shock, screamed when Hauk struck her and summoned help. The youth attempted to escape but was caught by police within a few minutes.

BRANDON, Vt. — The season's prize fish story has been told here. While viewing the private fish pond of Mr. and Mrs. A. Hawley Churchill, Robert Miller of Fort Edward, N. Y., lighted a small firecracker and tossed it toward the water. As he did so, a large trout grabbed it and darted away. A few moments later the trout came to the surface—dead. Miller was a week-end guest of the Churchills.

Boyhood Chums Are Re-United

Rev. Samuel McKinney And E. Bruce Meet Again After Separation Of 60 Years

An interesting reunion took place at the farm of Robert Peables of Plaingrove township, between Rev. Samuel McKinney of Fort Worth, Tex., who has been visiting relatives in the local district for the past few weeks, and E. E. Bruce, both of whom were born and raised in Plaingrove township.
Rev. McKinney and Mr. Bruce were schoolmates and had not seen each other since 1882. They had an enjoyable time recalling their pranks of 60 years ago, and recalling their old chums.
Rev. McKinney is a brother of the late Robert McKinney of this city.

FOLK DANCING IS REPORTED TO BE ON WAY BACK

(International News Service)
BOSTON—Troubles are over for the wallflower and stag-lines are on the wane.
This information comes from Miss Anne Cameron, dance instructor and assistant professor of physical education at Boston University's Sargent College of Physical Education, who says that folk-dancing is staging a come-back and you don't have to be a Fred Astaire to do it.
"Because social dancing is an individual activity it does not answer the sociological need for group participation," she says. "The spirit of nationalism in these troubled times makes the demand for group activity even more insistent. A swing-back to folk-dancing prominent since primitive man is the natural outcome."
A special effort to befriend them, Strangers to a new town can be just as lonely as refugees from across the seas, they say.

MRS. ROOSEVELT
MAKES ADDRESS

(International News Service)

PITTSBURGH, Sept. 5.—"The best way to prevent what other nations have gone through is to defend our nation whenever an attack threatens it."

That was the message left in Pittsburgh today by Mrs. Eleanor Roosevelt, wife of the President, as she made a whirlwind tour of this industrial area, climaxed with an address to a rally of some 3,500 young persons, last night.

"Unless we are willing to fall under the heel of the powers of force, we will have to meet force with force and then try to build that type of world in which the ideals of peace can be carried out," she told the gathering.

AROUND
CITY HALL

It will not be long until coal replaces ice on the city pay ledgers. As soon as cool weather comes, no more ice will be placed in the drinking fountains. Coal is being placed in coal bins in city-owned buildings.

There were 425 arrests by the city police during July according to Chief of Police W. G. McMullen. Receipts totaled \$614.55, in which

were 275 fines collected for violating of the parking meters, the great majority being levied. Dance permits brought the city \$24, the amount being included in the police receipts. Drunkenness caused 83 arrests.

The dog-catcher killed 41 dogs during July according to his report to city council today and the sealer of weights and measures reported he had made 35 adjustments of weights in local establishments during July.

No conferences have been held recently between council and street car officials relative to busses which may be operating here in November. With a big demand for

scrap it is not believed the company will have any difficulty disposing of the rails.

Red Cross Will Aid In Release Of Men In Army

Discharge Of 180,000 Soldiers Before Christmas Will Increase Work

WILL CONDUCT INVESTIGATION

American Red Cross chapters today were advised to expect an increase of 25% in the number of dependency discharge investigations conducted for the Army, as a result of the release of 180,000 soldiers from service before Christmas. The load of these investigations already is more than 16 times as great as a year ago. Miss Fulton, Home Service Secretary has a greatly increased Home Service load due to National Defense.

Ralph F. Davis, Chairman of the local chapter, pointed out that these investigations are conducted as a traditional Red Cross aid to the personnel of the armed forces.

Requests for checking of applications for dependency discharges are referred by commanding officers to Red Cross field directors stationed at each camp who in turn refer the requests to the home-town Red Cross chapter of the soldier. The chapter, aided by cooperating social agencies, makes the investigation and reports back to the commanding officer through the field director.

A large number of dependency discharge investigations were conducted by the chapter during July. Mr. Davis reported. This load is expected to be increased approximately 25 per cent during the final quarter of the year as a result of the mass discharge recently announced by the War Department.

"This increase in Red Cross home service work is only an added example of the vast expansion in all Red Cross aid to the Nation's armed forces," Mr. Davis declared. "The service load of field directors dealing with the able-bodied service men at Army and Navy stations has increased more than 80 per cent over 1940. Assistance in the form of medical social service and recreation and communication service, to men at the Army and Navy hospitals, has increased approximately 65 per cent." The Lawrence County Chapter is ready at all times to serve and any man in service having any problems can contact the local chapter.

I have noticed in my travels throughout this County that economic conditions have improved considerably. Many more persons are engaged in gainful occupation than for some years before. I would like to impress upon the voters of this County that it is important that they exercise their privilege of casting a ballot on Sept. 9th because of the importance of the offices involved. I trust that all citizens interested in good government will respond by casting their ballot. Your vote will be greatly appreciated.

NEW CASTLE AND GROVE CITY PLAY HERE TONIGHT

Ready To Open 1941 Grid Year

New Castle High 'Red Hurricane' Set To Launch Football Season; Grove City Will Bring Light And Fast Team Here; Taggart Stadium Will No Doubt See Big Crowd; Kickoff Occurs At 8 O'Clock.

FOOTBALL TIME is here again. Tonight at Taggart stadium at 8 o'clock, under the lights, New Castle's high school "Red Hurricane" team will play Grove City High in the start of the 1941 season.

In the event of good weather a large opening night crowd should be in the stands. The New Castle team has had two weeks of intensive training. The week at camp served to smooth off the rough edges, and the past week at the stadium has been used by the coaches—Bridenbaugh, Klee, Thomas and Cuba—to apply a little polish.

Well-Balanced Team
New Castle fans are going to find the New Castle team well-balanced. Not body and big, but about of the same size, and fast. Speed is going to mean a lot on the 1941 eleven. The line is dotted with a few veterans, but the backfield will have only one familiar face—Robert "General" Lee at left half.

Grove City Good
Grove City High will bring a team here that will have seven lettermen from last year on the team. Coach Gene Foster has had the squad at work for the past two weeks and believes that he has a classy combination lined up.

Last year New Castle only defeated Grove City 14 to 6. The Groves will come here tonight prepared to avenge that setback. The Grove City team will feature as usual a good forward passing attack. New Castle has been practicing all week on pass defense in preparation for the expected passes.

Grove City won the district championship last year losing only one game and that to New Castle. Sixty

boys have been trying for places on the 1941 team.
Reserves Look Good
New Castle High is blessed this season with a fine lot of reserve material. A football team needs reserves. Seldom does a player play the whole game anymore. When Bridenbaugh takes a man out of the first team lineup, he aims to have a boy equally as good to replace him. That is the secret of a winning team.

A few of the following reserves will no doubt see action tonight: Nickum, a halfback; Alexander, a tackle; Young, an end; Ross, a halfback; Probst, a tackle; Joseph, a center; Francis, a tackle, and San Filippo, a guard. Of course there will be others but these boys have looked the best in the workouts as members of the second team.

Tough Games Ahead
New Castle after tonight's game faces a tough next few games in Butler, the team that tied New Castle last year 6-6; Farrell, always tough and Beaver Falls, never a push-over. Sharon High, always a feared eleven, follows Beaver Falls. So one can see that the New Castle boys have their work cut out for them the next weeks to come.

The locals are anxious to defeat Grove City tonight and start the 1941 season right.
The reserved season tickets and the single game tickets have met a ready sale this week, and indications point to a crowd. Ticket sale for the game tonight ends at 5 o'clock at the Sporting Goods store. Robert Mills, the ticket manager, will pick up the New Castle-Grove City game at 5 o'clock on the nose. This practice will be adhered to, the entire season, Mr. Mills announced.

Everything is in readiness at the East Side stadium for the beginning of another three months of football. Be seen 'em.

Scotland Lane Schoolboys Face Ellwood City High Next Friday Night

With the season opener a week away, Union Township High's pork-chop chasers are laboring like Trojans in their Scotland Lane ball-wick.
The blue and white clad battalion inaugurates the season next Friday night, facing Ellwood City High at Ellwood City.

With seven insignia winners back, Coach John J. Susko is building his edition around the vets. Jaskolska, Brown, J. Presnar, D. Womer, J. Kline, S. Gorzak and P. Daugherty are the experienced hands.
H. Daugherty is pressing his brother, Paul, for halfback position. P. Kline, a hard driving ball totter, seems to be taking honors from his brother, J. Kline.

Due to the graduation of Allen and Taylor, the tackle slots are still in the unassigned stage. F. Kirsch, however, is making a strong bid for one of the posts with Jack Patterson and M. Geiring (a 200-pounder) engaged in a nip and tuck scrap for the other berth.
D. Womer, F. Sniezek and J. Hoagland appear to be outstanding delegates for the guard stations.

Since the opening of drills, Coach Susko has been stressing fundamentals. Blocking, tackling and ball handling have highlighted the rehearsals.
"The boys are working diligently and cooperating to the nth degree. While the team doesn't figure to be a world beater, Union Township will be represented by a fighting band of football players," Coach Susko said today.

SPORTS WORLD RAMBLINGS

New Castle's gaudy grid parade begins tonight at eight. On the bill-like green of Taggart field the "Canes" and "Groves" will match grid wits. We could go on and on and on with this silly silly verse. Since space and time do not permit it is only right that we submit after wishing the "Canes" jolly good luck.

That jealousy is taboo among members of the New York Yankees was clearly exemplified a few nights back when teammates tossed a surprise shindig honoring Joe DiMaggio. The A. L. champs handed the jollier a nifty gift upon which were inscribed the numerals 36 and 91—a reminder of Joe's consecutive hitting streak and the number of bingles DiMag has rapped out so far this season.

This kid Danny Murtough, must have something on the ball. The Philly youngster has participated in only 60 games yet he's leading the National in stolen bases with 17 pilfers. De Paul and Loyola have joined the University of Chicago in raising football from their sports curriculum. The newest grid power around Chicago, inhabited by about 3,000,000 persons, is Northwestern in Evanston.

"Red" Barber and Bob Elson have been selected to air the World Series classic for the third consecutive year. As of yesterday, the National League still couldn't boast of a batter who had driven in 100 or more runs. Now that Frank Hoerst has bagged a win, there isn't a pitcher in the majors who hasn't won at least one triumph, chuckers who have been brought up recently are excluded, of course.

Fine Matches In Tennis Tourney

HARRY Amos of Ellwood City proved too steady for Al Figuley of this city, winning by scores of 6-4, 6-4.

Tommy Jones vs. H. Fleming, Leslie court, 5 o'clock.
Andy Anderson vs. Al Morrow, Mears court, 4 o'clock.
Bob Meermans vs. H. Lyons, Mears court, 5 o'clock.

New York Yankees Clinch 1941 Flag

Defeat Boston Red Sox Thursday, Will Rest Veterans Until Series Time

Chicago Cubs Defeat Cardinals Twice As Dodgers Get Rained Out

By LAWTON CARVER
International News Service Sports Editor
NEW YORK, Sept. 5.—In one of baseball's most out-standing comebacks, the New York Yankees today claimed the American League pennant and a place against the eventual National League champions in the world series.

There have been few times in baseball history when a club has shown so little promise on paper starting out against tough opposition and then gone ahead to the title. The Yanks started the season with a second baseman—Joe Gordon—on first base; with Shortstop Rizzuto and Second Baseman Priddy from the Kansas City farm as utterly unknown elements and with an aging hurling staff and ball club.

By Wide Margin
They started the season with all that and with the Detroit Tigers as defending champions and the Cleveland Indians as red-hot favorites. Still they came through, clinching their flag yesterday on the earliest date and by the widest margin in the history of the circuit.

This marked their fifth pennant in the last six years and established the Yanks as the most effective club of these times.

As they went along to the title, the Yankees made many changes in the lineup and as the victory march ended Gordon no longer was at first and Priddy no longer was at second. The lineup was hustled around and up and down but through it all veterans were utilized to their fullest until finally yesterday at Boston the Yankees beat the Red Sox and clinched the flag again.

Sept. 5 is the earliest date on which the pennant ever has been clinched and the margin of 20 games over the Chicago White Sox is the widest ever run up by a pennant winner.

CARDINAL HERO

ST. LOUIS—One of the most sensational performers in the majors today is young Howard Pollet, of the St. Louis Cardinals. Plucked out of the Texas loop in the midst of the Cards' battle for the National League coronet, the southpaw bagged three out of four triumphs.

HERE AND THERE IN SPORTS LAND

Two score Pittsburgh friends of the late Tony Ross, former heavy-weight fighter, paid their respects to his memory last night at Humbert First society where his body lay until it was taken to St. Vitus church this morning. Tuesday. Among the friends were Patsy Brannigan, a stablemate of the late Tony; Pat Malone, Squire McCole, George Engel, who formerly managed Frank Klaus and Harry Greb; Phil Goldstein, former boxer; Al Sesto, Don Billiken and others. Emmett Rocco, former heavyweight of Ellwood City, was also here and another delegation of Pittsburgh friends headed by Art Rooney and Milt Jaffe were expected early this morning, likewise Mickle Forkins and other Warren O. friends.

Rain washed out the tennis play in the national championships yesterday at Forest Hills. Mike Ruffa, who battles Petey Scalo in one of the Dapper Dan & Art Rooney & Barney McGinley fights in Pittsburgh, Monday, was an amateur until he decided to fight professionally. Fritz Zivic and Milt Aron battle in another bout. Harry Bobo tackles Bill Poland and Moss Brown goes against Jimmy Webb.

Aviation Shares Make New Gains

(International News Service)

NEW YORK, Sept. 5.—A late forenoon slump in aviation shares enlivened an otherwise sluggish and mixed stock market today.

Gains ran to 2 points in Douglas Aircraft, with Boeing Lockheed and Curtiss-Wright each getting up to new 1941 highs in active dealings.

Several issues outside the air groups displayed independent strength. Gimbel Bros. moved up to a new top, after opening at 9 on a block of 2,000 shares. Laclede Gas continued its rise on the reorganization plan, advancing almost a point to within striking distance of its best 1941 level.

Only one bid was received for the improvement of Factory avenue, between Tenth and Eleventh streets. The bid, a little more than \$4,000, went to Oscar Dahl, Ellwood City.

The first step in eliminating the dangerous traffic condition at the hospital was taken when a resolution calling for the street committee to proceed with plans for widening Border avenue in front of the hospital was adopted.

A resolution calling for the purchase of an aerial truck for the fire department was lost by a 5 to 4 vote. Voting for the aerial truck were Biorzi, Lanzl, McCandless and Greenham, and voting against it were Hill, Caplan, Boyd, Menice and Curry. Lanzl said that the fire department was 95 per cent in favor of an aerial truck and made a long plea for the purchase of that type of truck. Other members are in favor of buying a new hook and ladder truck and a new pumper truck.

Petitions received included: Paving of Fifth street from Division to Perry streets, and improvement of Sixth street between the railroad crossing and Glen avenue.

Ordinances considered were: Second reading of electric light rates; second and final reading of inspection of gasoline tanks and storing places, and second reading of annexing part of North Sewickley township, near South Fifth street.

Taxes were reported as follows: 1941, \$40; 1919, \$37; 1940, \$46, and for 1941, \$7,992. Total fines, costs and forfeits reported by the burgess amounted to \$73.90. Three fires resulting in \$15 damage were reported by the fire chief.

Recommendations were made to the police department for the placing of a flood light on the stop signs at the Second and Fountain intersections, and for the curbing of speeding on Lawrence avenue, Fountain avenue, and Pershing street.

One case of infantile paralysis was the only contagion reported in the health officer's statement.

Damages were listed at \$100 to Alfred Bertagana and \$75 to Francis Laurio for Beaver avenue improvement.

At the next meeting an appeal board for the zoning ordinance will be named.
